Glossary GLOSSARY-1

Index INDEX-1

List of Figures

1.	TEdit selected in the background menu	2-1
2.	The TEdit window	2-3
3.	Right-button window menu	2-3
4.	A TEdit icon	2-4
5.	A TEdit window showing the scroll bar	2-5
6.	Selected Text	3-2
7.	TEdit's Field Filling Feature	3-4
8.	The "snap box"	3-7
9.	The TEdit command pop-up menu with the Expanded Menu option selected	4-3
10.	The TEdit Expanded menu	4-3
11.	Put command selected in the Basic Commands menu	4-7
12.	Get command selected in the Basic Commands menu	4-8
13.	The Include command selected	4-8
14.	Selecting the Find command from the Basic Commands menu	4-9
15.	The Find prompt	4-9
16.	Selecting the Substitute command from the Basic Commands menu	4-10
17.	The Basic Commands menu with the Quit command selected	4-10
18.	Hardcopy command selected from the window menu	4-11
19.	An example of the "Which Printer" menu	4-11
20.	Using the Basic Commands Menu to open the Character Looks menu	5-1
21.	The Character Looks menu as it appears when first opened	5-2
22.	The Character looks menu after doing a Show of text formatted in the font Modern 10 medium regular regular	5-3
23.	The Looks command selected in the Basic Commands menu	5-6
24.	The Font, Face, and Type Size menus	5-7
25.	The Basic Commands menu with Paragraph Formatting selected	6-1
26.	The Paragraph Looks menu	6-2
27.	Examples of left- and right-justified text	6-3
28.	A document with a paragraph extended into the left margin using the Special Locn: command	6-5
29.	The Paragraph Looks menu with the left margins set so that the second, and all following lines, of a paragraph will be indented	6-7
30.	The Paragraph Looks menu with the margins set to allow the right margin to "float"	6-7
31.	The Paragraph Looks menu with the right margin set to extend past the window's right edge	6-8
32.	Some tab settings and examples of left, right, and centered tabs	6-9
33.	A document using dotted leaders	6-9
34.	How the Paragraph Looks menu is set up for the numbered paragraphs above	6-10

35.	Copying paragraph looks using the SAME key	6-11
36.	After the SAME key is released	6-11
37.	Opening the Page Layout menu from the Basic Commands menu	7-1
38.	The Page Layout menu	7-2
39.	The page type portion of the Page Layout menu	7-2
40.	TEdit paper size options showing the default size selected	7-3
41.	The middle portion of the Page Layout menu used to specify page margins	7-4
42.	The two parts of the Page Layout menu used to specify page numbers	7-5
43.	The portion of the Page Layout menu used to specify headings	7-6
44.	The part of the Page Layout menu used to specify size and number of columns	7-7
45.	How TEdit adjusts the margins and columns	7-8
46.	The headers and footers as entered into the TEdit file for this chapter	7-8
47.	Heading labels	7-9
48.	Gray boxes mark headings in TEdit file	7-10
49.	Page Layout and Paragraph Looks menus values for first page	7-11
50.	Page Layout and Paragraph Looks menus values for the Other Left pages	7-12
51.	Page Layout and Paragraph Looks menus filled out for the Other Right pages	7-13

List of Tables

1.	TEdit's abbreviations and their expanded characters	3-5
2.	The character looks commands and where they are available	5-5
3.	The values of the relevant Paragraph Looks menu's fields for the headings in this chapter	3-5
